

Jill Heinerth

An extraordinary adventurer and inspirational woman

Jill's exciting multimedia presentations take audiences to breathtaking locations around the globe, where she has blazed new trails, challenged the unknown, and changed the perception of what science and curiosity can accomplish, helping us to be better stewards of our fragile planet.

Jill Heinerth is a role model. Her journey from an awkward suburban teenager to the top female technical diver in the world, is an inspirational tale of overcoming limitations and believing that anything is possible.

Dedicated to living an authentic, meaningful life, she has led expeditions to explore the last frontiers on earth: from treacherous Antarctic ice caves to the deep, dangerous underwater caverns and rivers beneath our very feet.

With a library of dynamic footage from her expeditions, and thousands of magnificent, original images, each presentation is customized for your event.

From a lifetime of adventures, Jill has created enlightening and entertaining presentations that will:

- Inspire your group to greater achievement
- Reveal the power of curiosity & perseverance
- Bring the thrill of exploration to your event

Rave Reviews

"What a great evening. Jill you are one fantastic lady and public speaker. Everyone was totally enchanted.."

- *Christian Laf, RCMP Police College, Ottawa, Canada*

"Jill Heinerth was AMAZING - Thanks for organizing such a great speaker, venue and fabulous door prizes!"

- *Shelley Brooks*

"I can honestly say that there is no one else even in your league. You're building a Grand Canyon-sized legacy for the rest of us to aspire to!"

- *Jacki Sheban Clark - School Teacher*

Keynote Presentations

Challenging The Unknown

Audiences are inspired by Jill's upbeat, multimedia presentations to reach beyond their limitations, challenge the unknown, and overcome their fears. She shares remarkable experiences and lessons learned in the dangerous and deadly arena of extreme underwater exploration and adventure filmmaking.

We Are Water

An imaginative, entertaining, and enlightening presentation, Jill teaches audiences about our planet's endangered freshwater resources. Featuring breathtaking underwater images and videography Jill takes viewers right into the heart of the planet, swimming through the underground arteries that are the source of all life on earth.

Minimizing Risk - Rules For Survivors

Jill shares her experiences as a team leader in the dangerous world of extreme cave diving. Drawing on her decades of cutting-edge life support planning and execution, she shares basic principles and practices for ensuring success in challenging circumstances.
